PSYCHOPATHY, PERVERSION, AND LUST HOMICIDE: RECOGNIZING THE MENTAL DISORDERS THAT POWER SERIAL KILLERS

Praeger Publishers. Hardcover. Book Condition: New. Hardcover. 185 pages. Dimensions: 9.3in. x 6.4in. x 1.0in. In this pointed study of serial killers, internationally known Forensic Psychologist Duane Dobbert shows us how - even years before the crimes were committed - the perpetrators of lust homicides exhibited behaviors showing certain mental and sexual disorders which grew to fuel the horrific murders. Dobbert's analysis, covering 13 killers from Herman Mudgett, who confessed to 27 murders in the late 1800s, to Jeffrey Dahmer, who killed 17 young men and boys between 1978 and 1991 - looks at their early lives and development of Antisocial Personality Disorder, as well as sexual disorders including sexual sadism and necrophilia. Special attention is paid to early signs of these disorders that were missed, mishandled, minimized or ignored by professionals in law enforcement, education, health care and criminal justice. The author demonstrates how and why most serial murders are sexually motivated, and fueled by this combination of psychopathy and sexual disorder. Having a clear understanding of the precursor behaviors could benefit us by enabling prediction and prevention of such crimes, says Dobbert. He also addresses signs of psychopathy and sexual disorders that should send red flags up to any adult or parent looking to protect their loved ones from harm. Dobbert offers psychological and social history of each killer, from early life on, which molded each into an ultimate monster. Lucas, for example, was born to a prostitute and an alcoholic father who lost his legs in a train accident. He was forced to watch his mother perform sexual acts with clients, regularly beaten and one head injury from a beating put him into a coma. His mother curled his hair into ringlets and dressed him as a girl, sending him to school like that. Lucas showed all the signs...
