SECTION I INTRODUCTION Object and JScope of Plan The object of this study has been to develop those basic principles and elements which make possible the establishment of uniform methods of cost accounting in shipbuilding. The plan recommended includes the important principles, definitions and elements of standardized cost methods which are applicable to any of the shipyards. To establish uniformity in cost accounting, it is essential that definiteness and standard methods be first established in the controlling items and divisions. These are of particular importance from the point of view of executives, who will be enabled currently to visualize production and operating conditions and to compare costs with standards in their own shipyards as well as with other shipyards. No attempt has been made to cover the numerous details and ramifications of accounting, timekeeping, storekeeping, forms, etc. Questions on such matters and details are...
